

OUR SIGNATURE EECP® METHOD

AUTONOMIC DYSFUNCTION & NEURO INFLAMMATION

EECP® helps balance the autonomic nervous system, decreases neuro-inflammation and improves neuro micro-circulation by strengthening the parasympathetic tone or vagus nerve.

EECP decreases the work load of the heart, so the heart gets to rest by increasing Nitric Oxide, which causes all of the blood vessels to Vasodilate (dilate), creating a balance and harmony in the nervous system.

- Relieves neuroinflammation by increasing circulation of blood throughout the central nervous system
- Promotes a relaxed and balanced response within the sympathetic nervous system
- Reduces neuroinflammation across the entire nervous system
